✓ In Stock

Product Description

INTUGREEN 6.5 mm Edible Rice Drinking Straw

The **INTUGREEN 6.5 mm Edible Rice Drinking Straw from Coimbatore, Tamil Nadu, India** is a slim, rice-based edible straw designed for everyday cold beverages such as water, infused water, fruit juices, soft drinks, mocktails, and other suitable chilled drinks. Its narrow 6.5 mm diameter makes it a practical choice for lighter beverage applications.

This **6.5 mm Edible Rice Straw** is suitable for cafes, restaurants, hotels, catering services, events, hospitality, retail, and sustainability-focused beverage programs. The edible rice-straw format helps businesses create a more distinctive drinking experience while offering an alternative to conventional single-use plastic straw formats.

INTUGREEN positions this product as a **6.5 mm edible straw, slim edible drinking straw, rice drinking straw, edible straw for juice, and sustainable foodservice straw**. Typical length options communicated across the range are **210 mm and 230 mm**, subject to the exact SKU.

Based in **Coimbatore, Tamil Nadu, India**, INTUGREEN supplies edible rice drinking straws for HORECA, cafes, restaurants, hotels, distributors, retailers, catering, events, and bulk or export requirements. Buyers should confirm the exact length, ingredients, pack quantity, storage, allergen information, beverage compatibility, and product documentation for the selected SKU.

Frequently Asked Questions

1. What drinks are suitable for the 6.5 mm Edible Rice Straw?

It is best positioned for thinner cold beverages such as **water, fruit juices, soft drinks, mocktails, and other suitable chilled beverages**.

2. Is the INTUGREEN 6.5 mm straw edible?

Yes. It is designed as a **rice-based edible drinking straw**. Consumers should follow the product label and applicable food-use instructions.

3. What length options are available?

INTUGREEN has communicated **210 mm and 230 mm** length options across its edible straw range. The exact length should be confirmed for the selected SKU.
